Aviary Systems - Voletto VITA

Welfare friendly multi tier laying systems

The aviary system to manage excellent results

Excellent overview and easy control

Robust construction

Layout

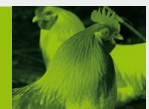

- 2 tier integrated nests with moveable floor
- Inspection walkway in the system
- One or multiple rows of aviary system
- One floor (Vita 1) or two floors (Vita 2)
- The position of the feeding and drinking lines lead the birds naturally to the nests
- Optimized for the highest operations manageability and predictability

Operation

- Good overview and bird inspection possibilities
- Good nest inspection by opening back wall of the nests
- Possibility to close the ground space under the system (initially)
- Easy to catch birds
- Removal of litter can be done using a Bobcat
